

W2 QUICK WATERLESS

Description:

W2 Quick Waterless by Innovacar features a latest-generation formula with superior lubrication and enriched with high-performance nano polymers, making it ideal for waterless car washing. This cleaner is perfect for fast, continuous and deep cleaning** of all exterior and interior car surfaces and can also be used as a drying aid for the bodywork, facilitating the process. Main features:

- **Biotics Technology:** the product is enriched with patented* probiotics for deep cleaning**.
- **3-in-1 product:** the cleaner can be used for quick interior and exterior detailing, or waterless washing and as a drying aid.
- **Cleans, polishes and protects:** W2 is a quick detailer with a high-quality, highly lubricated formula allowing easy and efficient use anywhere, without the need for water. It effortlessly combines cleanliness with shine and protection for the treated surface.
- **Silk effect, gloss and colour depth:** it smooths and polishes the bodywork, making it water repellent and smoother for cloths to glide on, reducing micro-scratches caused by dirt and reviving the shine and gloss of colours.
- **Water-saving:** the waterless and rinseless features make it possible to save water without renouncing the need for a clean car.
- **Easy application:** the water-based formula allows use on both wet and dry surfaces.

* Patent application no. 14730984.3

** Compared to the version without probiotics

How to use:

How to wash your car without water, with W2 Quick Waterless:

1. The product can be used pure, but the recommended dilution ratio is between 1:5 and 1:15, i.e., use between 170 ml and 60 ml of product and top up with water (between 830 ml and 940 ml) to obtain a 1 L ready-to-use solution.
2. Wait for the surfaces to cool.
3. Work on small areas at a time, applying the product on the dry or wet surface evenly.
4. Wait 15-20 seconds before removing the product, allowing the dirt to soften.
5. Fold the clean cloth into quarters to minimise the number of cloths needed for the wash.
6. Use the first side on the surface, working in one direction and lifting the cloth gradually as you wipe, to remove the dirt.
7. Finish cleaning with a clean and dry finishing cloth.
8. Clean the next area using another clean side of the previously folded cloth and repeat the process.

How to use W2 Quick Waterless as a quick detailer and drying aid:

1. Dilute the product preferably with distilled water, is between 1:15 and 1:25, i.e., use between 60 ml and 40 ml of product and top up with water (between 940 ml and 960 ml) to obtain a 1 L ready-to-use solution.
2. Wait for the surfaces to cool.
3. Apply 2-3 sprays of product directly onto the dry or wet surface, or else on a microfibre cloth, spread and then wipe again with a microfibre cloth.
4. Wait up to 7 hours for full product activation.

How to wash your car without rinsing, with W2 Quick Waterless:

1. Dilute the product in a bucket to a ratio between 1:65 and 1:99, i.e., use between 150 ml and 100 ml of product and top up with water (between 9850 ml and 9900 ml) to obtain a 10 L ready-to-use solution.
2. Wait for the surfaces to cool.

3. Make sure to remove any bracelets or watches during this process to avoid accidentally scratching the body-work.
4. Wash with a high-quality mitt, working on small areas at a time, then wipe again with a small microfibre cloth.
5. We recommend using the two-bucket method.

For waterless cleaning: The product can be used pure, but the recommended dilution ratio is between 1:5 and 1:15, i.e., use between 170 ml and 60 ml of product and top up with water (between 830 ml and 940 ml) to obtain a 1 L ready-to-use solution.

For use as a quick detailer and drying aid: The recommended dilution ratio, preferably with distilled water, is between 1:15 and 1:25, i.e., use between 60 ml and 40 ml of product and top up with water (between 940 ml and 960 ml) to obtain a 1 L ready-to-use solution.

For rinseless cleaning: The recommended dilution ratio for the bucket method is between 1:65 and 1:99, i.e., use between 150 ml and 100 ml of product and top up with water (between 9850 ml and 9900 ml) to obtain a 10 L ready-to-use solution.

Attention:

We recommend the product not be applied on hot surfaces or under direct sunlight. A deposit can be found at the bottom of the bottle, typical of probiotics presence; therefore, it is recommended to shake the product before use. When handling the product, observe the advice on the safety data sheet.

Technical properties:

Appearance and colour: green liquid

Odour: characteristic

pH: 2,7 $\pm$ 0,5

Flash point: > 60 °C

Relative density: 0,99 g/cm³ $\pm$ 0,05

Solubility in water: soluble

Solubility in oil: partially soluble

Storage:

In unopened packaging and stored away from direct sunlight and frost.

Packaging:
